. .

1. The government of the United States is of a limited character, and it is confined to the ex-ercise of powers expressly granted by the consti-tution, and such as may be necessary and proper for carrying the granted powers into full execution; and that all powers not thus granted or necessarily implied are expressly reserved to the

States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the reliadium of our liberties."

over as 2 the palladium of our liberties."

3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinious, or impose on other countries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their selfrespect and the respect which they claim and will enforce from foreign powers.

5. Government should be conducted upon prin-

ciples of the strictest economy, and revenue sufncient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the country. 6. The constitution vests in Congress the power

to open and repair harbors, and remove obstructions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every instance, national and general in their character.

7. The federal and State governments are parts

of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitu-tional measures of each, are duties required by the plainest considerations of national, of State,

and of individual welfare.

8. The series of acts of the 31st Congress commonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of further legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other—not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made : and we will main-tain this settlement as essential to the nationality of the Whig party and the integrity of the Union.

J. G. CHAPMAN, of Maryland, President of the Whig National Concention, B. A. UPTON, of Louisinus, Secretary of the Whig National Convention. WM. NOURSE. C. W. PAIRO.

THE LOST SENSES: DEAFNESS AND BLIND-THE LOST SENSES: DEAPNESS AND BLIND-NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the blind, (James Mitchell, Laura Bridgeman, and others,) are repiete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S Plansopherical Quarte Caushing and Pulverizing Machines are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quartez, Iron Ore, Zine, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be usely superazed, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the postbility of their being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australis.

These machines are from two to twelve feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and commy of

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their prodecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering. Architecture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Millis Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Teiegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventons, American and Foreign. The work is in form for binding, contains several hundred Engárnings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columins, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Suscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE.

aug 31 KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME
I TS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every furmer well
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN Co., N. J., September 4, 1861. We, the undersigned, do certify that we have seen Mr.
Krauser's Patent Clover Harvester in operation, and it has
given perfect satisfaction. It has gathered many of the
farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given
one-half for gathering and threshing.

JAMES D. TEMBERMAN,
WILLIAM P. GARWOOD.
JOHN F. COOK.

JOHN F. COOK, JAMES B. COOK, JAMES BRYSON, PETER H. JONES. WILLIAM P. GARWOOD, WM. C. NICHOLSON, JAMES COLLINS, CHARLES LEWIS,

Lowe-a-Comme, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON. The following points out the profitable nature

KRAUSER'S PATENT CLOVER-SEED HARVESTER. KRAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield
from 1½ to 3 bushels. Reducing it to a certainty of yielding
but 1 bushel per acre, what will it cost to gather and thresh
1,000 acres?

This Harvester will guther 12 acres per day. At
8 acres per day, it will take 5 harvesters 26 days,
at a cost of. \$150
Threshing. 200
Incidental expenses. 150

Cost of harvesting, &c., 1,000 acres. \$500

have found them to agree unanimously with the above calculation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory mannerin which it operates, can do so by calling at E. WHEELER'S.

Opposite Browns' Hotel.

Hampton's Vegetable Tincture! "COME, LET US REASON TOGETHER."

ORAL TESTIMONY. THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1862.

Pour Royal, Vs., July 27, 1862.

Mesers. Mortimer & Moubray: Gents: We have again to send an erder for more of your truly wonderful Hampton's Vogetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly,

The Whole World, Attention!—Hear him, ye sick, and do likewise!! PORT ROYAL, Va., July 27, 1852.

and do likewise!!

and do likewise!!

Baltimore, Feb. 9, 1852.

Mesers. Mortimer of Mosebray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think propers and believe me, yours, very respectfully,

N. B.—I can be seen at any time at the Mayor's office.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citi-zens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testi-

N. B .- I can be seen at any time at the Mayor's of

hundreds who have felt its healing powers bear the same testimony.

Baltimone, July 6, 1852.

Mestre. Mortimer & Mowbray: Genta: Last September I was attacked with erysipeles, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was bilious pleurisy, which left me with a constants, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURB, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottles, my cough and pains have envirally left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours,

Schroeder, hear Saratoga street.

Of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Northantrox (O., April 13, 1862.

Messre. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times se severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINGTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, helleving it unequalled.

Yours,

ELIZABETH BAGWELL. Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

Portsmouth, (Va.,) Aug. 18, 1861.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizzinces, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

VERNON ESKRIDGE,

Chaplaia in the U. S. Navy.

NEW SEVENTH STREET BOOK-STORE.

REW SEVENTH STREET BOOK-STORE.

GRAY & BALLANTYNE having secured commodious of and convenient premises in Seventh street, two doors above Odd-Fellows Hall, (opposite the old stand of A Gray,) offer a new and beautiful assortment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Romar Carrar & Browners, and of the Mexicolust Book Concern, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Presbyterian Board, American Tract Society, American Sunday School Union, &c.

Their assortment of JUVERILE BOORS, and Works suitable for Sunday School Libraries, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Noat Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They earnestly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is flooding the country to such a fearful extent.

In addition to their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Juvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all prices; Albums, Annuals, and beautiful Gift Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

THE undersigned would respectfully inform the citizens of Washington and the public in general that they have this day associated themselves in copartnership in the Auction, Commission, and House-furnishing Business. The business in future will be conducted under the firm of Green & Scott. Their place of business is at the corner of 6th street and Fennsylvania avenue, where they will keep constantly on hand a good and general assortment of Furniture, and would be happy to supply their friends and those who may favor them with their custom at reasonable prices.

A. GREEN, sep 3—

THOS.A. SCOTT.

Protection from Lightning.

The undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Metallurgist Lightning these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, youlare hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

Washington City.

I do hereby certify that I have app lied various powerft I chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the scion of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of obloride of scidium, (common selt.) acetic scid, sulphuric adid, and hydrechloric acid. With the first, there was no action on the

chloric ackl. With the first, there was no action on the metal; with the several ackle, there was very alight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are intended. Yours, truly, Prof. ROBT. PETER.

LEXINGTON, KT., February 20, 1860.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheaptess, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

AUGUSTA. (Ga.) NOVEMBER 1. 1882.

equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, mantfactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to redst for years the action of those atmospheric causes most likely to corrode them.

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the pian of Mr. Spratt, sppear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important suxilisary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,
Prof. of Chem. in the University of Louisville.

LOUISVILE, January 27, 1861.
